

D&B Network Intelligence

Enrich your data by resolving people related to businesses

Due diligence, screening and obtaining and verifying beneficial ownership data is vital to protect your business. It's crucial to know your customers and suppliers and verify they are who they say they are. This applies to identifying people as well as identifying businesses.

D&B Network Intelligence provides a comprehensive people-centric lens that utilizes AI-driven data from the Dun & Bradstreet Data Cloud to identify individuals that potentially hold multiple beneficial ownership, shareholder, or directors' roles or within their network of third parties. This unique capability offers numerous benefits for due diligence programs, enabling for more informed decision making through advanced visibility.

ACCELERATE DUE DILIGENCE BY VISUALIZING THE RIGHT ENTITIES

Backed by big data and analytics, D&B Network Intelligence helps you to better manage risk by establishing effective beneficial ownership visibility with industry-leading coverage that includes over 300 million directors and 130 million shareholders.

- AI-driven data helps you avoid duplications in due diligence screenings and ensure calculations are made against one person
- Make well-informed decisions with people-centric visibility and risk evaluation

HELP REDUCE SCREENING COSTS WITH AUTOMATION

Gain back more time and reduce costs with the power of automation. D&B Network Intelligence helps you avoid wasting time screening duplicate names and reduce the number of false positives.

- Robust insights from the Data Cloud cluster beneficial owners holding multiple roles in your business network
- Automated process allows you to efficiently avoid duplicate due diligence screenings
- Gain back more time by avoiding manual deduping processes

D&B NETWORK INTELLIGENCE ENABLES YOU TO:

- **ACHIEVE BENEFICIAL OWNERSHIP VISIBILITY** by identifying beneficial owners in multiple roles within your business network.
- **REDUCE SCREENING COSTS** by avoiding duplicate outreach.
- **INCREASE DUE DILIGENCE DEFENSIBILITY** with greater visibility into source of wealth and faster conflicts of interest checks.

INTRODUCING ONE-OF-A-KIND CAPABILITIES FOR MORE EFFECTIVE DUE DILIGENCE

With a built-in global dataset of 400+ million entities, D&B Network Intelligence is the only big data and analytics solution in the market that can link people with businesses to provide greater insight to procurement and compliance leaders – all powered by the Dun & Bradstreet Data Cloud.

HELP AVOID POTENTIAL BRAND OR REPUTATIONAL DAMAGE

Advanced beneficial ownership data helps connect the dots between entities and people, helping to ensure you have established the right person for screening.

- Eliminate the need to connect entities above and below the target business
- Negate the need for outreach to fee earners
- Perform faster conflict checks to help protect your business

ESTABLISH SOURCE OF WEALTH AMONGST YOUR CUSTOMERS AND SUPPLIERS

D&B Network Intelligence allows you to establish source of wealth by gathering data points to a single entity.

- Get the answers you need with a streamlined and automated approach
- Avoid asking clients and third-parties hard questions
- Create a more robust and defensible approach to risk management
